

Priority Customer Designation

As part of our emergency preparedness plan, it's important for us to determine our priority water customers. **A priority customer is a person or business whose lack of normal water service could constitute a life threatening situation or an emergency disaster.**

For example, if you depend on a kidney dialysis machine for medical health or if you provide a medical service to others, and disruption of water service could cause possible medical harm, you are a priority customer. If you believe that you meet the above criteria, please complete the form below and send it to 1345 W. Broadway, Missoula, MT. 59802. Thank you for helping us serve you better!

Priority Customer Designation

Please print clearly and fill out as much information as you can.

Name _____

Address _____

Phone Number _____

Reason **(if you have a medical health reason, you must provide certification from a licensed physician)**
