Low Income Discounts

Service

Schedule \_\_\_\_\_

## ELIGIBILITY

Customers must annually qualify for the low income discount by annually qualifying for the Low Income Energy Assistance Program. The Customer must provide the Company with satisfactory evidence of qualification under LIEAP.

## DISCOUNT

Eligible Mountain Water customers will receive a \$ 6.70 reduction in the applicable flat rate, or demand charge if metered. The discount applies only to services provided during the current billing period and not to arrearages from prior billing periods.

## COST RECOVERY

The cost of the low income discount will be recovered in the rates Mountain Water charges as follows:

1. The dollar amount of the discount actually provided by Mountain Water to its low income customers will be recorded in a balancing account.
2. Amounts in the balancing account established above will accrue interest at the weighted cost of capital last authorized by the Montana Public Service Commission.
3. In each rate case succeeding the approval of this tariff, the balance in the balancing account, including accrued interest, at the end of the year used as the test period in that rate case, will be treated as an extraordinary expense and amortized over two years in the cost of service prepared in that rate case.
